

VIP Guest Speaker

NICK GOODALL

HEAD OF RESEARCH FOR CORELOGIC

CoreLogic is a leading property information, analytics and services provider (in NZ) with access to a broad and detailed range of data across the industry.

CoreLogic helps clients identify and manage growth opportunities, improve performance and mitigate risk, by providing clients with innovative, technology-based services and access to rich data and analytics.

Nick Goodall has worked as an analyst across many industries for over 15 years, providing insights for telecommunications companies, Government organisations and banks during that time.

As the Head of CoreLogic's Research Team, Nick takes advantage of the huge range of CoreLogic's own unique datasets as well as publicly available information to provide an easy to understand breakdown of the property market to a wide range of people in the industry.

Nick looks beyond what you hear in the media and looks at the real things happening in the property market. This includes a fresh view on some of the public data as well as in-depth analysis of CoreLogic's own unique datasets (including recently released Vulnerability Index) to provide a view you will never have seen before.

This is our last monthly meeting for 2021

Wednesday 3rd November 7.30pm
Palmerston North Bridge Club

Corner Cook and Cuba Streets, Palmerston North
Doors open from 7pm,

For more information contact the Association President: Pauline Beissel on 0274719192
