

Hi,

This month we have a fantastic range of ASKO laundry & kitchen products but there is limited stock.

The ASKO story is a unique one. It started back in 1950 in Vara, Sweden. An innovative young man had a dream to build a washing machine for his mother, so he could help make her life easier. Reflecting his love of nature, he set out to build a unique, energy and water efficient machine. Today, more than 60 years later, ASKO is a global brand, famous for its world-class kitchen and laundry appliances.
