# 01 INFORMATION FOR LANDLORDS

## Why list with Property Pages?

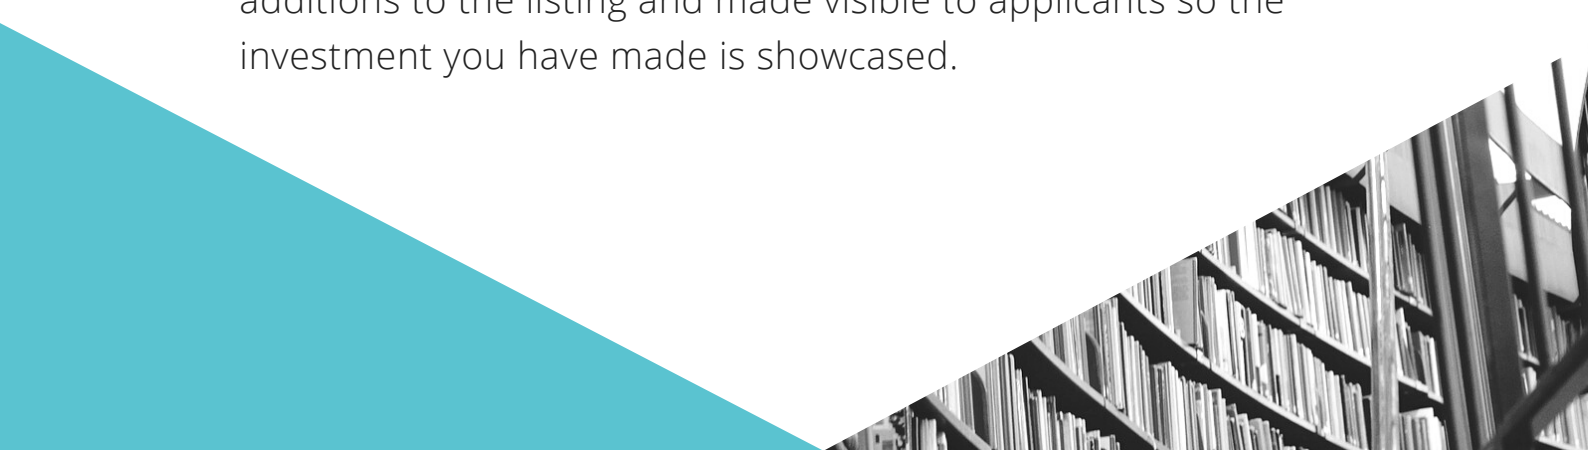

Property Pages is a website that brings all things property to one place and aims to be New Zealand's most trusted source of independent information, free professional advice, and has links to properties, agents, and trades and services.

You can visit the website at [www.propertypages.co.nz](http://www.propertypages.co.nz).

Listing properties on our site is an entirely free service. It costs you nothing to create the listing, to renew an expired listing, to connect with people or apply for properties. We do not take money from either the lister or the applicant.

Our listings are simple to create. Simply copy/paste, drag and drop and add pictures, video, text, and any features and furnishings your property may have.

All properties listed on our site are compliant with the Healthy Homes Standards. The details of level of compliance and to which standards specifically the property complies are compulsory additions to the listing and made visible to applicants so the investment you have made is showcased.

## 02

# WHY CHOOSE US?

**Free**

Listing, applying and viewing rental properties is free. No listing fees, no limit to the number of properties you can list or apply for.

**Effortless**

Listings are easy to build. It takes less than a minute to copy/paste, drag and drop images, text and video to create a fully featured listing. When the listing expires you can renew it with a single click.

**Healthy**

All listed properties are Healthy Homes which benefits the renters and we promote that aspect which benefits the property owner and the investment they have made.

**New**

We are a new service and the fastest growing property hub in NZ so any properties you list with us will stand out in your area.

## 03

When complete your listing will have all of the following features:

- Unlimited text, your own header image, and up to 20 other images
- Contact details, one-touch phone link for mobile, and email address
- Include a map on your listing and show your location with directions for mobile users
- Healthy Home Standards compliance details
- Property features
- Contact form
